

TRIVEN

Data Processing Agreement (DPA)

Transparent data protection terms for Triven customers and architects.

Version 1.1 Effective July 2026

This Data Processing Agreement (DPA) forms part of the agreement between Triven and the customer using Triven services where Triven processes Personal Data on the customer's behalf.

1. Definitions

Data Controller means the customer that determines the purposes and means of processing personal data. **Data Processor** means Triven, which processes personal data on the documented instructions of the Data Controller. **Personal Data** means information relating to an identified or identifiable person. **Processing** includes collecting, storing, using, transmitting, and deleting Personal Data. A **Sub-processor** is a third party engaged by Triven to process Personal Data.

2. Scope of Processing

Triven provides AI-powered business communication services, including AI receptionists, appointment scheduling, customer messaging, voice automation, and workflow automation.

Depending on the services enabled by the Customer, Triven may process:

- Caller phone numbers and caller metadata
- Customer names and contact details
- Appointment information and scheduling data
- Business configuration and operational settings
- Call recordings (if enabled by Customer)
- AI conversation transcripts
- SMS and customer messaging content
- Google Calendar event information
- Email metadata required for service delivery
- AI agent execution logs

Triven processes Personal Data solely on behalf of the Customer and strictly according to documented instructions. Triven **never sells Personal Data**.

3. Google Integration & Data Usage

Where the Customer connects a Google account, Triven accesses only the Google Workspace data necessary to provide requested functionality. For Google Calendar integrations, Triven uses Google Calendar data solely to:

- Check appointment availability
- Create calendar events
- Update existing appointments
- Delete cancelled appointments

Google Workspace data is **never used to train, improve, or develop generalized artificial intelligence or machine learning models**. Triven complies with the Google API Services User Data Policy, including the Limited Use requirements.

4. Artificial Intelligence Services

Triven may use third-party AI providers to generate responses, summarize conversations, automate customer communications, and perform appointment scheduling.

Google Workspace data and other customer data are processed solely for providing the requested service and are **not used to train or improve generalized AI models**. AI providers act only as authorized sub-processors.

5. Security Measures

Triven maintains appropriate technical and organizational safeguards, including AES-256 encryption at rest, TLS 1.3 in transit, strict Role-Based Access Control (RBAC), Multi-Factor Authentication (MFA) for admins, audit logging, regular backups, 24/7 security monitoring, incident response procedures, and workforce security training.

6. Sub-processors

Triven may use vetted sub-processors to fulfill service delivery:

Provider	Purpose
Amazon Web Services	Cloud Infrastructure & Storage
Twilio	Voice Telephony & SMS Messaging
OpenAI	AI Processing & Response Generation
Stripe	Payment Processing
Google Cloud	Authentication & Calendar Integration

7. Data Categories and Retention

Personal Data is retained strictly as required for service delivery:

Data Category	Retention Period
Call recordings	90 days (if enabled)
Conversation transcripts	90 days
Appointment information	Account lifetime
Google Calendar data	Only while integration remains active
Execution Logs	14 days
Caller phone numbers & SMS content	30 to 90 days

8. Customer & Data Subject Rights

Triven reasonably assists the Data Controller with requests for:

- **Data Export:** Extracting stored customer personal data.
- **Data Deletion:** Permanent deletion of account data and transcripts.
- **Data Correction:** Updating inaccurate records.
- **Account Deletion:** Full account purge upon termination.

9. Google API Limited Use Statement

Google API Limited Use: Triven's use and transfer of information received from Google APIs adheres to the Google API Services User Data Policy, including the Limited Use requirements. Google user data is used only to provide customer-requested functionality and is never used for advertising or training generalized AI models.

10. Personal Data Breach

Triven will notify the Data Controller without undue delay after becoming aware of a Personal Data breach and will provide available information about its nature, affected data, likely consequences, and remediation measures.

11. Deletion and Return

At termination or upon a valid documented request, Triven will delete or return Personal Data unless retention is required by law. Production data is targeted for deletion within 30 days and residual backup copies within 90 days.

12. International Transfers & Audit Rights

Where Personal Data is transferred across borders, Triven uses lawful mechanisms including Standard Contractual Clauses. Triven supports one reasonable audit per calendar year with advance written notice.

13. Term and Contact

This DPA remains effective while Triven processes Personal Data for the Data Controller.

Privacy Questions: privacy@triven.ai | **General Support:** support@triven.ai

14. Execution & Acceptance

This DPA is pre-signed on behalf of Triven.ai. Customer's access or continued use of the Triven platform constitutes full binding acceptance of these terms.

Signed on behalf of Triven.ai:
